**Cutting-Edge Technology**

**Emissions Control Specialists**

## Introduction

Alliance Transport Technologies provides a full range of aftermarket solutions for the bus, coach and commercial vehicle markets. Led by industry specialists, the Alliance Transport Technologies teams combined have over 30 years industry experience. We aim to deliver a complete, end-to-end aftermarket service by capitalising on strong partnerships with suppliers and customers and producing innovative products.

An uncompromising approach to quality and ongoing investment in people provides Alliance Transport Technologies with the ability to offer operators and OEMs a level of service aligned with today's technological needs.

We provide our customers with:

- > High quality OE and aftermarket parts
- > Remanufacturing of electronic and electrical components
- > Nationwide field service team who are specialists in diagnostics
- > Emissions control retrofits and upgrades
- > Contractor recruitment service for skilled Engineers
- > Fire suppression solutions

With a clear focus on providing high performance products and services that add value to our customers' businesses, our reputation for being the UK's leading aftersales specialist is well earned.

## Our Team

The team at Alliance Transport Technologies brings a wealth of specialist experience from various transport sectors.

# Core Values

## INNOVATION

We value innovation and technology. In our product and service offering to customers we strive for ingenuity.

## PEOPLE

We treat our people and customers fairly and with respect. We communicate openly and prioritise safety.

## QUALITY

We have strict high quality standards and look for ways to continuously improve.

## TRUST

We build strong relationships with our partners and customers to drive growth and success.

## SUSTAINABILITY

We foster a safe and environmentally responsible culture in all business practices and processes.

## FLEXIBILITY

We believe in being adaptable and open with our customers to provide the best possible levels of service.

## INTEGRITY

We are sincere with all that we do and integrity is at the heart of our individual and corporate actions.

# History

1993

## Alliance Electronics

Established in 1993 as Alliance Electronics. The business focused solely on remanufactured electrical components.

2017

## Additional Services

To support the needs of our customer base we introduced parts and field service functions to our offering.

2018

## Rebranding

We rebranded as Alliance Transport Technologies to better recognise our complete aftermarket solution to customers.

2020

## New Premises

Our new workshop opened in Featherstone, West Yorkshire, to support field service division and meet customer needed. Alongside the workshop opening, we became TEMSA's UK Service Partner.

Our e-commerce website launched in October 2020, offering parts ordering, remanufacturing collections and field service engineer bookings.

## New Parts

- > Full Emissions range available
- > Competitive pricing
- > Comprehensive stock holding
- > Next day delivery
- > 12-month warranty on all parts

## Service

- > Industry experienced high voltage trained technicians
- > Full dealership diagnostic capabilities
- > Regional coverage
- > Featherstone based workshop
- > Retrofit specialists

## Remanufacturing

- > Cost saving against buying brand new
- > Only genuine parts used to ensure quality
- > Quick turnaround
- > 12-month warranty
- > Positive impact in reducing your carbon footprint

## Electronic Remanufacturing

Our team of electronic engineers are specialists in the repair of vehicle electronic units for the bus, coach and commercial vehicle industries.

Alliance Transport Technologies has built a remanufactured product offering that is a proven alternative to new parts. Our heavy investment into research and development has allowed us to be at the forefront of the latest vehicle technologies. With over 26 years of trading Alliance Transport Technologies are the UK's market leader in electronic remanufacturing; we have become the UK's most trusted supplier.

From dashboards to ECUs we provide a cost effective solution on all remanufactured parts, as an alternative to buying completely new parts. All of our remanufactured parts are covered under our 12-month warranty. We can support all major OEM products from Volvo, ADL, Optare, Mercedes, Scania, DAF and MAN.

We stock a wide range of remanufactured parts at our facility in Clowne, Derbyshire. All of our products are quality assured and pre-tested prior to customer delivery.
