

ELECTRONIC REMANUFACTURING TRUCK & PLANT CATALOGUE

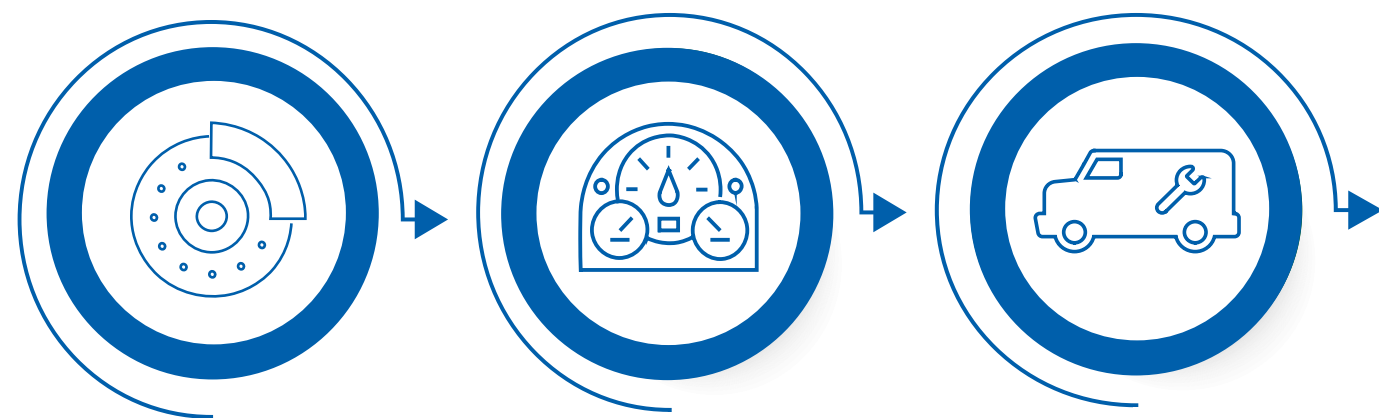

Electronic Remanufacturing

We were founded in 1993 by a team of engineers who recognised the benefits of remanufacturing and how it could help customers. Over the last 25 years, we have developed our range and technical expertise to better understand how the parts we remanufacture can be returned to our customers in the same condition which they were first purchased.

We completely disassemble, clean, and examine all components for signs of damage, wear and tear. Damages are fixed and any missing or non-functioning parts will be replaced or rebuilt to ensure a fully working part is delivered back to you.

The Remanufacturing Process

Remanufactured parts are significantly better for the environment. The process uses less raw materials, less energy, and results in significantly less waste being sent to landfill. During the ATT remanufacturing process, up to 90% of existing materials are restored. We drive towards a circular economy through our remanufacturing process by reducing (and in some cases eliminating) waste and re-using resources where possible to create a closed loop system.

1

You can phone, email or create a collection on our website. Collection is free from anywhere in Mainland UK.

2

Your parts will be remanufactured, tested and quality checked before being dispatched back to you on the next working day. All remanufactured parts come with 12 months warranty.

3

You receive your part to be refitted with peace of mind that you have a quality remanufactured part, minimised your downtime and maximised your cost savings.

Our Team

The team at Alliance Transport Technologies brings a wealth of specialist experience from various transport sectors.

Wiring Harnesses

ATT's dedicated Wiring Harness production line has been supplying Wiring Harnesses for over 20 years to the Truck, Bus and Coach industries. We have the in-house capabilities to design and manufacture harnesses to specification.

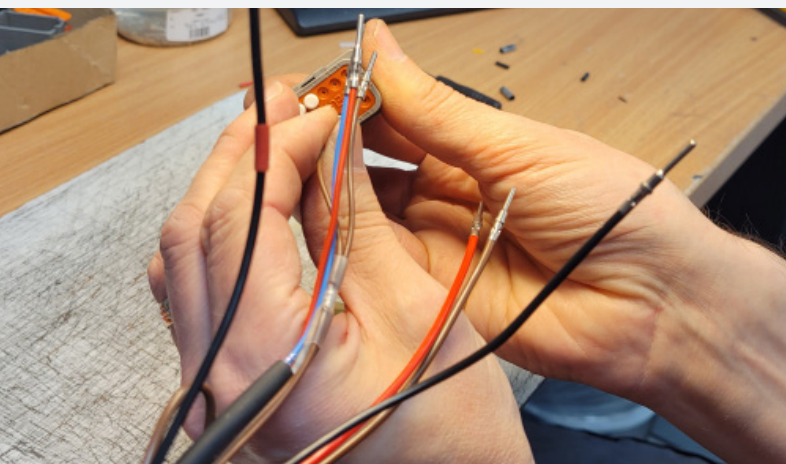

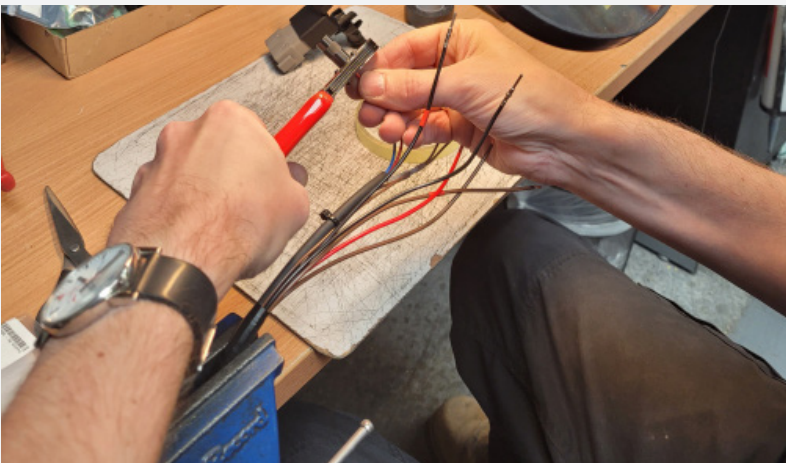

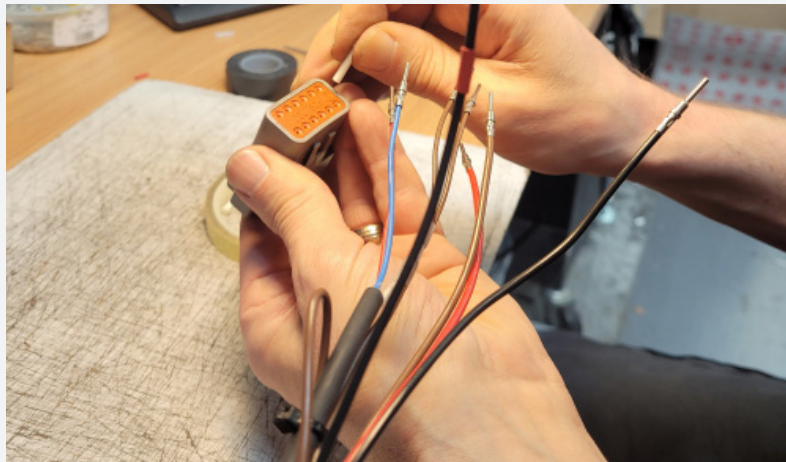

ATT have successfully provided wiring harnesses for various customer types around the world, just some solutions can be found on the following systems:

- Vehicle Conversions
- Emissions Control Retrofits
- Bus, Coach and Truck OEM's
- Hi-Voltage, Electric and Hybrid vehicles

Our relationships with our customers have allowed us to develop long standing relationships and allow our expert team on site to be at the forefront of the latest technologies, regulations and standards.

For more information and to discuss the Wiring Harness you require, please contact:

After-sales Capabilities

New Parts Team

- We are committed to providing our customers with a comprehensive source for all their new part requirements
- Next day delivery on stocked items
- 12 month warranty

Field Service Technicians

- State of the art diagnostic equipment
- Experienced and skilled Field Service Technicians
- Nationwide Service Team

Workshop

- Experienced Master Technicians
- Multi-brand diagnostic equipment
- Complex electrical repairs
- Major unit repairs
- Scheduled service and inspections
- MOT preparation
- Hybrid and electric vehicle maintenance and repair
- HVAC servicing and repair
- Delivery / collection service

ATT Support

- Quote before we work
- Keep you informed
- OE Quality products
- Guarantee of work
- Comprehensive reporting and feedback

Directions to

Alliance Transport Technologies Ltd. - Remanufacturing HQ

Home of the company's remanufacturing services.

- M1 Junction 30 exit onto the A616
- At the roundabout, take the 3rd exit onto Oxcroft Way A616
- At the next roundabout, take the 2nd exit and stay on Oxcroft Way A616
- At the next roundabout, take the 1st exit and stay on Oxcroft Way A616
- At the following roundabout, take the 2nd exit onto Barlborough Rd A616
- Turn right onto Boughton Lane
- At the end of Boughton Lane cross over the High Street and enter The Arc complex
- As you enter the car parks you will see 3 Buildings making up The Arc
- Alliance Electronics Ltd is the centre building, to the left is
- Bolsover council and Children 1st nursery is to the far right.

Directions to

Alliance Transport Technologies Ltd. - New Parts and Workshop HQ

Home of the company's new parts, field support, engineering recruitment and OEM support.

- Leave the M62 at Junction 31
- Continue to Pontefract Rd/A655
- Continue on A655. Take B6134, Sewerbridge Ln and Common Side Ln to Green Ln
- At the roundabout, take the 1st exit onto Green Ln
- Continue on Green Ln and turn right onto Innovation Square
- Alliance Transport Technologies is Unit 2
